volumetric weight limitation

-  Overlength charges are incurred if any side of the parcel > 122cm.
-  Fees are charged based on the greater of the actual weight and the volume weight if any side of the parcel ≥ 60 cm; volume weight (kg)= length (cm) \times width (cm) \times height (cm) /6,000; fees are charged by the actual weight if each of the three sides < 60cm.
-  Parcels cannot be sent if any side > 120cm. (Fees are charged based on the greater of the actual weight and the volume weight.)
-  The parcel cannot be shipped if the side length is over 60 cm. (According to the actual weight (kg))

Logistics Query

- Parcels receiving Notices
- What does 'Not yet delivered' mean?
- How to find the parcel logistic information after it has been sent out from warehouse?
- How to track my parcel after it has been sent out from warehouse?

Products Abnormal

- About the packaging details
- What do I do if there is a product issue after I received it?
- What do I do if my fragile products have been damaged?
- Can the Shopping Agent orders be cancelled or refunded?

Parcel lost

- Insurance and compensation
- The inspection rules of the Shopping Agent Service
- Websites says items in stock, but why Superbuy says out of stock?

Shopping Agent Process
